

Portability employee guide

Understanding portability and successfully completing your application

ONEAMERICA® appreciates the opportunity to provide you with valuable insurance protection. Now that your employment status has changed and your insurance through your employer has ended, you must consider your alternatives. You may have options that will allow you to continue your current insurance and help maintain your family's financial health now and in the future.

What is Portability?

Portability allows you to continue your group insurance offered by your employer even after a change in employment status. Premiums for a portable insurance policy may increase and are subject to change at any time. Although portable policies do not accrue cash value and rates are not guaranteed, portability helps offer you peace of mind and the coverage you need to keep your family financially protected.

Coverage Considerations

If after reviewing your certificate of coverage, you have determined you are eligible for portability of coverage, there are additional requirements that must be taken into consideration:

- Portability for term life coverage is not available to individuals age 70 or older.
- You must purchase portability coverage for yourself in order to cover any eligible dependents.
- To purchase Accidental Death & Dismemberment (AD&D) coverage, you must purchase the associated term life insurance.
- Portable Disability coverage is not available to individuals whom are disabled, on leave of absence or are retired and will automatically terminate after 12 months.

For questions about the details of your group policy coverage, please contact your employer or call us directly at (800) 553-5318.

Application Deadline

To be considered for portability coverage, ***AUL must receive your completed and signed application and required premium within 91 days of termination of coverage*** under your employer's group policy. Incomplete application submissions or submissions that are received more than 91 days after the date of benefits termination will result in denial of the portability provision. ***Mail completed application and required premium to:***

Premium Calculation

To calculate your monthly premium, identify the amount of coverage you wish to continue, ensuring this amount falls within your eligibility range. Divide this coverage amount by 1,000 to determine the number of \$1,000 units you will be purchasing. Next, locate the appropriate premium rate according to your current age classification and multiply this rate by the number of units.

Example Calculation

To help you better understand the premium calculation process, please refer to the sample calculation below. This calculation is based on a 50 year old individual interested in purchasing a portable employee term life insurance policy in the amount of \$25,000.

Monthly rate per \$1,000 (\$0.88) x Number of \$1,000 units (25) = Total Monthly Premium (\$22.00)

Note: The provided premium calculation example is provided for illustration purposes only. This example is not intended to represent the typical cost of life insurance. This policy has exclusions, limitations and terms under which it may be continued in force or discontinued at any time. The amount of death benefit provided is dependent upon the coverage selected and premiums will vary based on the amount of coverage selected. Actual premiums will be calculated by AUL.

Conversion employee guide

Understanding conversion and successfully completing your application

ONEAMERICA® appreciates the opportunity to provide you with valuable insurance protection. Now that insurance through your employer has terminated or reduced, you must consider your alternatives. You may have options that will allow you to convert your group insurance to an individual policy and help maintain your family's financial health now and in the future.

What is Conversion?

Conversion is a privilege in your employer's group policy that allows you, and in some case your eligible dependents, an opportunity to convert your group insurance into an individual policy. Premiums for converted coverage may not be the same as those under your group policy, however, rates are guaranteed once the policy is issued and will not increase for the life of the policy.

Coverage Considerations

If after reviewing your certificate of coverage, you have determined you are eligible for conversion of coverage, there are additional requirements that must be taken into consideration:

- The amount of insurance you purchase under the conversion privilege may not exceed the amount in place when coverage under the group policy terminated.
- The application period begins the date coverage terminates under the group contract.
- Please call us at (800) 553-5318 for additional information and premium rates for conversion of disability coverage.

For questions about the details of your group policy coverage, please contact your employer or call us directly at (800) 553-5318.

Life rates and calculating premium

Rates

Premium rates are based on the age as of the effective date of the individual life insurance policy and are outlined on the rate charts found on the following pages. To estimate the amount of premium, locate the appropriate rate sheet for your gender and tobacco use status. Next, locate the age you will be as of the effective date of the individual life insurance policy and identify the amount of coverage you would like to convert.

Example Calculation

To help you better understand the premium calculation process, please refer to the sample calculation below. This calculation is based on a 50 year old, non-tobacco using male interested in converting \$25,000 in coverage.

	Semi-Annual Payment	Monthly APP Payment
Amount to be converted	\$25,000	\$25,000
Annual rate per \$1,000	\$28.18	\$28.18
Multiplied by number of \$1,000 units converted	25	25
=Total Annual Premium	\$704.50	\$704.50
Multiplied by factor for frequency of premium payment ³	.515	.088
Plus administrative fee ⁴	\$1.00	\$0.00
=Premium	\$363.82 every 6 month	\$62 per month⁵

² All examples are hypothetical and provided for illustration purposes only. These examples are not intended to represent the typical cost of life insurance.

³ For your premium computation, use .515 if paying semi-annually or .088 if paying monthly APP.

⁴ An administration fee applies to the semi-annual payment method.

⁵ Note three months initial premium is required to be paid with the conversion application if APP is selected.

Note: This invitation to inquire allows interested employees the opportunity to inquire further about conversion to an individual life insurance policy and is limited in its description. This policy has exclusions, limitations and terms under which it may be continued in force or discontinued. The amount of death benefit provided depends upon the coverage selected and premiums can vary depending on the amount selected. Actual premiums will be calculated by AUL. Any coverage under the individual life insurance policy is based on the amount existing and available under the group life insurance contract and must be a minimum of \$2000, subject to AUL's approval contract maximums and according to contract terms and conditions.
