

Welcome to EHN and My Medical Neighborhood!

Several years ago, Mohawk Industries began a journey to reach their vision to have the healthiest and safest workforce in industry through a clinically integrated delivery system. Realizing a healthcare network with optimal clinical integration was not available, Mohawk made the strategic decision to partner with Employers Health Network (EHN).

Thank you for joining us on this groundbreaking initiative! With EHN and My Medical Neighborhood, you have a single point to impact the health of your community.

As your group moves down the path toward clinical integration, you will have additional interaction with EHN staff, as well as myCatalyst, who is facilitating this unique platform.

We have included the EHN Provider Manual for your reference. It is full of useful information, as well as contact information for any questions you may have.
